JHB/HM/30589

Dear Jeff

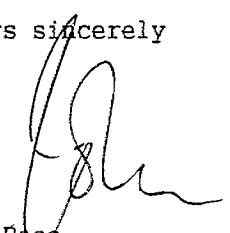

Norwegian Patent Application No. 89 3002
Your Ref: PM1319 - Our File:30589

Further to my letter of 8th June we have received a report from Norway on the amendment filed together with a subsequent official action accepting the amended claims but requiring routine amendment of the specification to adapt it to the new claims. The term for response will expire on 11th December 1992.

A copy of the amendment filed in July is enclosed, which includes the amended claims. The amendment necessary in the specification is to direct the introduction to the invention now claimed, which is that of claims 1 to 3 only. The remaining claims are being proceeded with in a divisional application, which I am reporting separately.

I should be grateful if you would confirm that the necessary amendments should be made in this parent application in order to secure early allowance.

Yours sincerely

J.H. Bass
